

TiQ Series *Modular 140*

AC Surge Suppression Solutions

FEATURES

- Up to 200 kAIC rated
- Noise filtration up to -40 dB
- LEDs on modules verify protection status
- All modes L-N, L-L, L-G, and N-G protected
- 140 kA 8/20 μ s surge current capacity per phase

ACData's TiQ Series Modular 140 suppressors provide heavy-duty, pluggable AC Surge Suppression solutions. Able to withstand multiple hits over 100 kA without arcing, cold-welding, or deteriorating the contact system, the TiQ Series is revolutionizing modular surge suppression design and performance.

TiQ Series Modular 140 suppressors utilize robust metal oxide varistors (MOVs) to protect your sensitive electronic equipment from the devastating effects of transient voltage surges. Each phase includes an LED status indicator, allowing visual verification of protection status. LED "on" indicates suppressor is functional. LED "off" indicates suppressor or AC power failure.

TiQ Series requires no tools for module upgrade or replacement.

All ACData surge suppression products are subjected to rigorous testing standards at Ryan Labs™.
